User Guide

The goal of this game is to reach the end of the level while avoiding the enemies. You start the level with 3 hearts and you lose a heart every time an enemy touches you. If you lose all 3 hearts, it's game over and you have to restart the level. When you reach the end of the level you will have the option to go to the next level or play the level again.

You can control the Player character with WASD or the arrow keys to move and spacebar to jump.
